

master planning

ssoe[®]. making clients successful.

Why SSOE? The SSOE Experience is the combination of our Value Promise and Great Client Service that results in trusted relationships.

To consistently exceed clients' expectations is a common goal in our industry. So, how is our promise of outstanding performance any different from others? We have proof. Greater than 98% of clients we surveyed would recommend SSOE Group to a colleague. And more than 150 of our clients have been with us for at least 20 years. These endorsements are a result of our Great Client Service—our corporate-wide commitment to understand and exceed your expectations and deliver unexpected benefits.

For decades, we've found ways to deliver greater value to clients. You can count on us to deliver high quality projects, on schedule, with fewer problems, and for lower total cost to save you time, trouble, and money. Through this Value Promise SSOE returned 105% of our fee to clients in the form of project savings over the last 5 years.

Advantages

- Our master plans reflect your short and long term business issues associated with developing new facilities including capital constraints, operational efficiencies, and market position.
 - We approach your facility challenges creatively in order to identify unexpected opportunities.
 - As a multi-disciplined firm, we draw on our in-house experts from all disciplines to assure the plan's completeness.
 - No plan is too limited or too complex for SSOE. Our experience covers everything from single sites to multiple, complex global sites. We devise strategic plans that include trend forecasting as well as sustainability plans that lead to energy savings.
-

“The master plan more than paid for itself. In the design phase SSOE found ways to use the space more efficiently which increased the capacity of each building from 300 to 400 people. SSOE saved US Xpress \$6.5 million by reducing future building costs.”

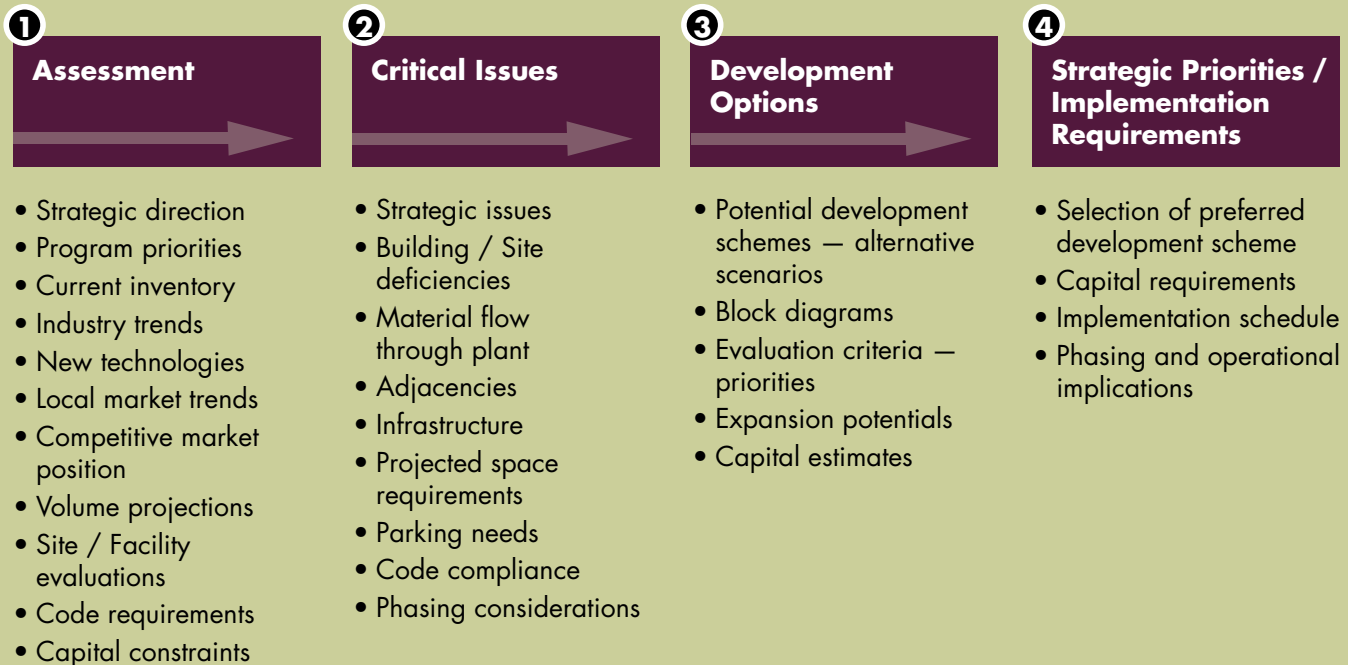

Kevin Schopf
Facilities Planner for US Xpress

(Great Place to Work®)

SSOE Facts

- SSOE was founded in 1948 and currently has more than 20 locations worldwide.
- We are a global project delivery firm for architecture, engineering, and construction management, with projects in 40 countries.
- SSOE offers program management services from design through construction, to commissioning and start-up, for seamless project delivery.
- SSOE's focus is using the appropriate project delivery method for your goals, including Virtual Design and Construction (VDC), which brings our clients better and faster results through more integrated teams and advanced technologies. Even when a more traditional delivery model is used, you'll see significant benefits from the collaboration strategies and technological capabilities our leadership in VDC necessitates.
