

Department of Veterans Affairs

IDIQ Contract for Four Medical Centers

location Ann Arbor, Detroit, Saginaw, and Battle Creek, Michigan

highlights

- Contract renewable up to four years
- Comprehensive range of services
- New facilities, renovations, and / or upgrades
- Multiple task orders

As part of an Indefinite Delivery, Indefinite Quantity (IDIQ) contract, SSOE is providing multi-discipline design services to four Veteran Affairs (VA) medical centers. These facilities serve the healthcare needs of more than 700,000 area veterans. Ranked among the top healthcare architects in the nation by Modern Healthcare, SSOE was chosen for its extensive experience and unique understanding of healthcare as well as government facilities.

The IDIQ includes as-needed design and engineering for various capital improvement projects. Task orders include programming, feasibility studies, schematic and detail design, and value engineering for new facilities as well as renovations or upgrades to existing facilities. Following are the task orders completed or currently in progress.

Aleda E. Lutz VAMC, Saginaw, Michigan
