⌘ ssoe<sup>®</sup>. making clients successful.

**Why SSOE?** The SSOE Experience is the combination of our Value Promise and Great Client Service that results in trusted relationships.

To consistently exceed clients' expectations is a common goal in our industry. So, how is our promise of outstanding performance any different from others? We have proof. Greater than 98% of clients we surveyed would recommend SSOE Group to a colleague. And more than 150 of our clients have been with us for at least 20 years. These endorsements are a result of our Great Client Service—our corporate-wide commitment to understand and exceed your expectations and deliver unexpected benefits.

For decades, we've found ways to deliver greater value to clients. You can count on us to deliver high quality projects, on schedule, with fewer problems, and for lower total cost to save you time, trouble, and money. Through this Value Promise SSOE returned 105% of our fee to clients in the form of project savings over the last 5 years.

---

## Advantages

- Our experts are making an impact through biodiesel and ethanol production, procuring and installing panels to collect solar energy, and shaping the future of the energy market through research and development facilities for fuel cells.
  - Consistent with our eco-friendly mission, SSOE can provide a process that reduces the space, energy, and cost of producing biodiesel.
  - SSOE has designed numerous biodiesel projects across the U.S. turning out a minimum of 30 million gallons per year, per facility.
-

## SSOE Facts

- SSOE was founded in 1948 and currently has more than 20 locations worldwide.
- We are a global project delivery firm for architecture, engineering, and construction management, with projects in 40 countries.
- SSOE offers program management services from design through construction, to commissioning and start-up for seamless project delivery.
- SSOE's focus is using the appropriate project delivery method for your goals, including Virtual Design and Construction (VDC), which brings our clients better and faster results through more integrated teams and advanced technologies. Even when a more traditional delivery model is used, you'll see significant benefits from the collaboration strategies and technological capabilities our leadership in VDC necessitates.
- Our energy consulting group offers a holistic approach to meeting your renewable energy, conservation, and sustainable design goals. We have more than \$1 billion in projects that have been LEED® certified.

## Technical Specialties

SSOE is providing complete EPCM services for numerous biodiesel facilities throughout the U.S. Services include the following:

### Biodiesel

- Animal fat pretreatment
- Balance of plant design
- Biodiesel process supply
- Crude vegetable oil
- Flammable liquids handling
- Glycerin purification
- Process development
- Process optimization
- Thermal oxidation

### Related services

- Air permitting support
- Budgetary cost estimating
- Building design for classified areas
- Bulk storage and handling
- Due diligence and entitlement

- Earthwork, grading, and storm water management
- Electrical power and site lighting design
- General layout and geometrics
- Landscaping
- Off-site infrastructure improvements
- Opinions of construction costs
- Project specifications
- Rail design
- Roadway and parking pavement design
- Secondary containment plans and details
- Site selection, conceptual and preliminary planning
- Soil erosion sedimentation control, SWPPP plan, and permitting
- Structural design
- Traffic control signage and pavement markings

- Traffic studies and signal design (when required)
- Utility provider interface and engineering (sanitary, water, gas, telephone)
- Water treatment system design
- Weigh scale

## Representative Clients

- American Biodiesel
- Blue Earth Biofuels
- Freedom Fuels
- Memphis Biofuels

## Locations
