

oncology centers

****Soo***. making clients successful.

Why SSOE? The SSOE Experience is the combination of our Value Promise and Great Client Service that results in trusted relationships.

To consistently exceed clients' expectations is a common goal in our industry. So, how is our promise of outstanding performance any different from others? We have proof. Greater than 98% of clients we surveyed would recommend SSOE Group to a colleague. And more than 150 of our clients have been with us for at least 20 years. These endorsements are a result of our Great Client Service—our corporate-wide commitment to understand and exceed your expectations and deliver unexpected benefits.

For decades, we've found ways to deliver greater value to clients. You can count on us to deliver high quality projects, on schedule, with fewer problems, and for lower total cost to save you time, trouble, and money. Through this Value Promise SSOE returned 105% of our fee to clients in the form of project savings over the last 5 years.

Advantages of our Oncology Services

- Our team will optimize your design for the installation and operation of specialized treatment and imaging equipment, while facilitating required regulatory approvals.
- We apply our experience in both hospital-based and free-standing oncology centers in developing facility layouts and interior design plans that are sensitive to the needs of families and patients.

"Our relationship with SSOE throughout our project couldn't have been better. They did an outstanding job of infusing creativity into the design without exceeding the budget. In fact, their innovative thinking added both short and long-term value to our significant investment. Every medical staff member, facilities person, and administrator I've talked to is thrilled with the facility."

Robert Giffel, Administrative Director Genesys Hurley Cancer Institute

Specialties

- Bone marrow transplant units
- Gamma knife
- HDR / LDR
- Inpatient programs
- Linear accelerators / IMRT
- Medical oncology / infusion centers
- Nuclear medicine / MRI / CT / ultrasound
- PET / PET CT
- Simulation

Project Types

- Breast centers / Women's centers
- Comprehensive cancer centers
- Free-standing cancer centers
- Hospital-based cancer centers
- Physician clinics

SSOE Facts

- SSOE was founded in 1948 and currently has more than 20 locations worldwide.
- We are a global project delivery firm for architecture, engineering, and construction management, with projects in 40 countries.
- SSOE offers program management services from design through construction, to commissioning and start-up, for seamless project delivery.
- SSOE's focus is using the appropriate project delivery method for your goals, including Virtual Design and
 Construction (VDC), which brings our clients better and faster results through more integrated teams and advanced
 technologies. Even when a more traditional delivery model is used, you'll see significant benefits from the
 collaboration strategies and technological capabilities our leadership in VDC necessitates.
