

# Workforce Development

Building Your Workforce

Volkswagen

As the demand for specialized skills continues to evolve, the design of buildings that serve workforce development programs must also adapt. SSOE | S&W's principle focus is ensuring that educational design meets a variety of workforce training needs while remaining flexible, efficient, and high performing so your workforce development space, technical training facility, or innovation center remains attractive to students, teachers, and researchers. Our experience in automotive and industrial manufacturing combined with higher education and training center design dexterity makes SSOE | S&W the perfect partner for public, private, and higher education clients.

## Top 10 in Five Industrial Markets

Our niche expertise in workforce development center design comes from our ranking as a Top 10 Design Firm in five industrial markets (ENR) and a higher education client list made up of nearly 40 universities

## 2M SF Workforce Development Design

We've completed more than 2 million SF of workforce development and training center design for higher ed institutions, private industry, and trade unions

## National Resource and Expertise

No matter where you are in the U.S., we can deliver reliable, responsive, and timely support to your project from our 18 office locations and are familiar with code and permitting requirements in every state

Designing and building the future for our clients, colleagues, and communities.
