- Maury County Schools
- Miamisburg Schools
- Millcreek-West Unity Schools
- Sylvania Schools

SSOE's focus on education caters to the special needs of the K-12 market. Our teams are committed to serve our clients with quality environments that fulfill the unique needs of administrators, teachers, and students—with the knowledge that these parties will in-turn be serving a segment of the public.

We have decades of experience spanning facility retrofits, renovations, upgrades, and new construction to campus master planning and district-wide rebuilds. Demonstrated by our award-winning designs and national recognition, our team will provide you with affordable, sustainable, flexible, and inspiring educational facilities. We examine your curriculum and how the community intends to use the facility now and in the future.

In addition, our plans accommodate projected gains or losses in your student population with flexible spaces or planning future additions. And, we pride ourselves on developing a look and feel for each facility that reflects the unique character of its community and becomes a source of local pride.

LEED CERTIFIED

Our multi-disciplined LEED® accredited professionals have delivered smart, sustainable, cost-effective solutions for projects worth more than \$1 billion

\$39M COST SAVINGS

More than \$39 million in documented savings to Education clients since 2009

“SSOE has displayed the highest degree of professionalism in every facet of the Sylvania Schools’ \$79 million bond project. SSOE has provided the district with superior leadership and technical guidance in the areas of strategic facilities master planning, budgeting, concept design, schematic design, construction documents, and construction oversight. The SSOE team has brought a collaborative process that insured the success of all 12 projects.”

– Brad Reiger, Superintendent, Sylvania Schools
