"For Safety's Sake - Do Something"

SSOE GROUP IS A PROJECT DELIVERY FIRM FOR ARCHITECTURE, ENGINEERING, AND CONSTRUCTION MANAGEMENT.

Safety Summary at SSOE

At SSOE, we believe in our employee's well-being. We understand that our employees are our most valuable asset.

Safety Saves Our Employees! Thinking like this can show a commitment to all employees that successfully collaborating as a team can lead to success.

You should not just look out for yourself, but also those around you which is a commitment to the **Safety Always** vision.

For project and site work, we require all plans to be **SAFE** by using the SPA (Safe Plans of Action). These are hazard analysis of high risk tasks that determine steps for safe completion.

S Stop and observe the situation and determine what could be hazardous.

A Analyze the work or task to be done and determine the steps for safely completing the task.

F Formulate a plan based upon the observed hazards. Make it safe to work.

E Execute the plan as written and amend it as needed to catch all hazards.

All work at SSOE should follow the **SAFETY** acronym.

S SPA's (SPA's are required by everyone for all high risk activities).

A Audit the site (Site safety audits must be completed daily).

F FSS Observations (Behavior based safety observations often and by everyone, safe and at risk).

E Emergency Action Plan (Developed and in place for all emergencies, local occupational clinic in place).

T Training for everyone (10 hrs. for workers, 30 hrs for supervision and training as needed).

Y You Own the Site, Safety Always! (It is not just enough to look out for yourself, but to look out for others).
See Something, Say Something.
